PROFESSIONAL EXPERIENCE

Independent AI Product Builder — **Jul'26 - Present | Bengaluru**

- **Test Maker (SaaS Assessment Platform):** Engineered a deterministic parsing engine and NoSQL Firestore DB via AI-assisted rapid development to deliver timed mock exams and diagnostic scorecards, solving question bank digitization friction (Case Study).

KPN Fresh - Associate Product Manager (Payments & Platform | 300+ Stores) — **Feb'24 - Apr'26 | Bengaluru**

- **Omnichannel Data Foundation & BI Governance:** Architected a BigQuery Star Schema (12+ Fact/Dim tables) and event-driven webhook pipelines to eliminate legacy POS/WMS/ERP data silos, defining metrics across 7 Looker dashboards to cut data sprint cycles by 30% and save 20 hrs/month.
- **Promo Engine & Omnichannel Attribution:** Built a unified Promo Manager with an event-driven Blukode POS bridge and Redis counters, eliminating cart crashes, slashing launch time to <5 mins, and enabling closed-loop offline ROAS tracking via Meta Conversions API.
- **Loyalty Triggers & Subscription Promos:** Engineered an 'Applied Promotion Trigger' generating 30-day serialized coupons upon qualifying SKU purchases, driving a 40% surge in subscriber revisits, a 10% transactions lift, and 15% GMV contribution across 100+ stores.
- **Last-Mile ETA & Tracking:** Built a LightGBM last-mile ETA engine (70% accuracy) and friction-based tracking UI, cutting Google Maps API costs by 85%, WISMO tickets by 70%, and delivery delays from 40% to <15%.
- **Demand Forecasting & Replenishment:** Automated inventory replenishment across 300+ stores using a BigQuery reconciliation bridge and LightGBM models, cutting forecast error by 15.3%, retail stockouts by 22%, and perishable wastage by 18%.
- **Retail POS Modernization:** Spearheaded a 30-point gap analysis to decouple sub-second cashier checkout from administrative flows, designing a local-first Cloud/Express POS architecture to eliminate manual reconciliation and establish a zero-leak sync loop.
- **Omnichannel Refunds & CX Automation:** Launched a Razorpay-integrated self-serve refund engine and agent SLA dashboard across App/Web, automating 85% of 4L+ refunds, cutting TAT from 48 hrs to 12 mins, and unlocking ₹4 Cr in repeat orders.
- **Data Reconciliation & CRM Recovery:** Engineered a BigQuery SQL reconciliation pipeline and Dead Letter Queue to resolve historical migration gaps and POS API dropouts, restoring 100% code accuracy across 2M+ CleverTap profiles to drive a double-digit engagement rebound.

Classplus - Associate Product Manager (Subscriptions, Monetization & Lifecycle) — **Apr'26 - Jul'26 | Bengaluru**

- **Growth & GenAI Content Automation (Postly App):** Engineered a Gemini API pipeline handling 500+ daily ingestions to autonomously generate and auto-tag localized Hindi posts, deploying a spreadsheet ops utility to directly upload approved assets to the app.
- **Subscription Paywall & Funnel:** Bifurcated the subscription funnel with complete WebEngage/Branch telemetry, boosting Day-0 engagement to 72%, driving 42% checkout initiation, and securing 13-18% UPI mandate conversion.

Quleep - Founding Product Manager | 0-to-1 B2B SaaS — **Jan'23 - Jul'23 | Bengaluru**

- **AR Commerce Platform (0-to-1):** Architected and launched a multi-surface B2B AR marketplace (ARNxt) with an internal asset validation pipeline, slashing 3D model onboarding time by 24+ hours and securing 30+ enterprise sellers to drive incubation acceptance.

Siemens Ltd - PMO | Urban Company - Category Growth Associate — **Apr'21 - Nov'22 | Bengaluru**

- **Cross-Border PMO & Category Ops:** Executed 45 PM Maturity initiatives across 7 APAC nations (Siemens). Formulated partner quality audits across 10K+ professionals and managed 20 SMEs to drive category NPS to 45 and scale Personal Chefs to >89% fulfillment (Urban Company).
